B2B Lead Generation: Sample Lists

Zaid Mubbasher · B2B Lead Generation & Skip Tracing

I help US and Canadian businesses reach the right people with verified contact data and clean lists that are ready to dial or email. For the past 5 years I have built targeted B2B lead lists for clients. You tell me the industry, location, company size and job titles, and I deliver a clean spreadsheet.

WHAT YOU GET

- Decision-maker name, title, company and website
- Verified business email, with catch-all addresses flagged
- Direct or company phone, LinkedIn URL, city and state or province
- Lists for one niche or any business, in the US or Canada
- No duplicates, and the columns your CRM expects

HOW I WORK

- A free 10-lead sample before you commit
- Email verification before delivery
- The format you need: Excel, CSV, Google Sheets or a CRM import
- Quick replies during US business hours

TOOLS I HAVE WORKED ON

Apollo.io, Hunter.io, RocketReach, Lusha, LinkedIn, plus company websites for cross-checks. For real-estate lists: PropStream, REISkip, DealMachine, BatchData, REsimpli, LeadSherpa.
